1. A 34-car train, occupied by personnel, proceeded from the Neubrandenburg railroad station to the Neubrandenburg-Trollenhagen airfield on 29 August. Nine railroad tank cars arrived at the airfield on the same day. Air activity, involving MIG-15's, was observed at the airfield on 30 August.¹
2. No aircraft or personnel were observed at Reinsdorf airfield on 22 and 29 August. The field was being used as a pasture.²

Comments:

1. Flying activity by MIG-15's was also observed at Neubrandenburg-Trollenhagen on 3 and 4 September. It is believed that the airfield is occupied by the fighter regiment which had been stationed at Puetnitz during the summer.
2. The above information supports the assumption that the ground attack regiment which had been stationed at Reinsdorf has probably been transferred to Finsterwalde.
